

# Enterprise Knowledge Assistant — Test Document

This document is intentionally designed to test a production-oriented document ingestion pipeline. It contains normal text, headings, a structured table, a process diagram, and a chart.

## 1. Return Policy

Customers may return standard products within 30 days of delivery. Damaged products may be returned within 60 days when photographic evidence is provided. International orders are subject to the conditions described in the International Orders section.

## 2. Return Periods

| Product Type  | Return Period | Condition                      |
|---------------|---------------|--------------------------------|
| Standard      | 30 days       | Unused product                 |
| Damaged       | 60 days       | Proof required                 |
| International | 30 days       | Country restrictions may apply |

## 3. Warehouse Return Process

The return process consists of four stages: customer request, warehouse inspection, approval, and refund processing.

## 4. Monthly Return Requests

Return requests increased from 120 in January to 230 in June, with a temporary decrease in May.

## 5. International Orders

International returns must comply with the destination country's restrictions. The customer service team should verify eligibility before approving a refund.
